

# A.C. Formula®

## What Is It?

A.C. Formula® is a standardized herbal formula consisting of barberry, grapefruit seed, lavender, tea tree oil and red thyme extracts, as well as calcium undecylenate for intestinal tract microbial balance and health.\*

## Features Include

- Barberry, containing the alkaloid berberine, which helps promote immune system function and impede the adherence of bacteria to cells.\*
- Grapefruit seed, providing polyphenolic compounds and supporting healthy microbial and fungal balance in the gastrointestinal tract.\*
- Lavender, soothing the stomach and colon.\*
- Tea tree oil, promoting the balance of beneficial bacteria.\*
- Red thyme, soothing the gastrointestinal tract.\*
- Calcium undecylenate, supporting healthy fungi levels.\*

## Uses For A.C. Formula®

**Promotes Healthy Microbial Balance In The Intestinal Tract:** This synergistic combination of concentrated herbal extracts promotes microflora balance, as well as healthy yeast and fungi levels in the colon and intestinal tract.\*

## What Is The Source?

This formula contains: *Berberis vulgaris* (barberry) extract (6:1); grapefruit seed extract; calcium (calcium undecylenate); lavender extract (standardized to contain 15% essential oil); tea tree oil extract (standardized to contain 15% essential oil); and red thyme extract (standardized to contain 15% essential oil).

## Recommendations

Pure Encapsulations recommends 4-6 capsules per day, in divided doses, just before meals with 6-8 oz of water.

## Are There Any Potential Side Effects Or Precautions?

Not recommended for pregnant or lactating women. Some individuals may experience lethargy, nose bleed, skin and eye irritation, and kidney irritation if sensitive to barberry extract. This formula contains thyme extract, which may lead to dizziness, vomiting, and breathing difficulties in sensitive individuals.

## Are There Any Potential Drug Interactions?

This formula may potentially react with antibiotics. Consult your physician for more information.
