PediaNutrients®

—pediatric formula—

INTRODUCED 2004

What Is It?

PediaNutrients® is a hypo-allergenic, highly bioavailable multi-vitamin and multi-mineral formula. This formula is available in small capsules for easy swallowing.*

Uses For Pedia Nutrients®

Support For Children's Health: PediaNutrients® is specially designed to provide broad spectrum, scientifically based vitamin and mineral support to help meet the daily nutrient needs of children and their young metabolic systems. This gentle and easily assimilated formula provides the key vitamins and minerals that promote healthy growth and development in the doses that are consistent with the accepted scientific recommendations for children between the ages of 4 and 11.*

What Is The Source?

The nutrients found in PediaNutrients® are derived from the following:

- Mixed carotenoids: *D. salina* (algae)
- Vitamin C: corn dextrose fermentation
- Vitamin E: soybean
- Vitamin D₃: cholesterol from wool fat (lanolin)
- Vitamin B₁ (thiamine HCl): synthetic
- Vitamin B₂ (riboflavin): corn dextrose fermentation
- Niacinamide: synthetic
- Vitamin B₅ (calcium pantothenate): synthetic
- Vitamin B₆ (pyridoxal HCl): synthetic
- Vitamin B₁₂ (methylcobalamin): corn dextrose fermentation
- Folic acid: synthetic
- Biotin: synthetic
- Minerals: naturally derived from earthen ore

Sources of the mineral chelates include:

- Aspartate: soy protein hydrolysis
- Citrate: corn dextrose fermentation
- Glycinate: synthetic
- Polynicotinate: synthetic

Hypo-allergenic plant fiber is derived from pine cellulose.

There is no detectable GMO material in this product.

Recommendations

Pure Encapsulations recommends:

- Ages 4-8, take 2 capsules per day, with a meal.
- Ages 9 and up, take 4 capsules per day, in divided doses, with meals.

Are There Any Potential Side Effects Or Precautions?

There are no known side effects or precautions associated with this formula. If pregnant or lactating, consult your physician before taking this product. Consult a physician for children under the age of four.

Are There Any Potential Drug Interactions?

At this time, there are no known adverse reactions when taken in conjunction with medications.
